

# END-TO-END DECARBONIZATION

EnOS™ Edge

EnOS™ Cloud or 3rd party Cloud

EnOS™ Solution Suite

## Phase 1

### Establish and visualise carbon baseline in real-time

---

- Setup EnOS™ Edge for Automated Data Collection
- Establish Carbon Emissions Baseline
- Monitor & Report for Governance and Compliance

## Phase 2

### Gain insights with AloT and optimize usage

---

- AloT Software, EnOS™ To Optimize Energy Demand
- Identify Scope 1 & 3 Carbon For End-to-End Optimization
- Smart Diagnostics for Plant Operations Improvement

## Phase 3

### Further carbon reduction, fully integrated within single platform

---

- Solar PV Integration
- On-Site EV Setup
- On-Site Battery Storage
- Establish Microgrid
- Exploration of New Methods for Net-Positive Portfolio
