

Ambition to Action:

Jump Start Your Decarbonization Journey

DECARBONIZING a company's operations is already a challenging task, made even more complex by the need to comply with current regulatory mandates for sustainability financing and to meet the market's demand for a green supply chain.

CHALLENGES WITH MANUAL CARBON CALCULATION

ADDRESSING YOUR COMPLEX NEEDS

EnOS™ GREEN PACKAGE offers a comprehensive solution combining hardware and software to facilitate sustainability management. Companies can easily identify emissions sources and track progress towards decarbonization goals, enabling them to make data-driven decisions that drive their sustainability efforts forward.

- Automated real-time data retrieval from meters and batch onboarding of offline data via Excel Import.
- Pre-built carbon calculation factors for carbon emission calculations.

1

MEASURE

Automated reporting with IoT technology.

MANAGE
Gain comprehensive insight into carbon emissions and identify optimization opportunities.

2

- Track and manage global carbon and resource usage, including emissions, electricity, gas, heat, steam, oil, water, and waste.
- Understand consumption patterns and identify optimization opportunities with peer benchmarking.

EnOS™ Green+ add-ons to help accelerate your journey to net zero.

- Energy efficiency management
- Rooftop solar integration
- EV charging integration

3

MITIGATE

Take prompt action and achieve savings with fleet on-off controls.

WHY EnOS™ GREEN PACKAGE

Speed

Get started as soon as **2 hours** upon data onboarding with pre-configured plug-and-play hardware.

Security

Built-in security chips with robust communication security through **TLS/SSL/HTTPS** protocols.

Scalability

Roll out across multiple sites effortlessly, and customize solutions specific to your needs with **Green+ Add-ons**.

START YOUR JOURNEY IN 3 SIMPLE STEPS

Sign Up

Sign up for EnOS™ Green Plan and get your EnOS™ Green Box.

Connect

Connect meters through EnOS™ Green Box and onboard devices and data within scan & configuration.

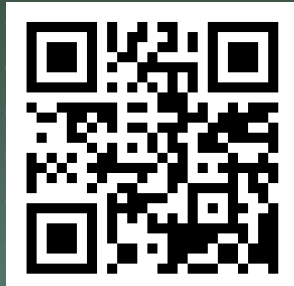

Visualise

Visualise your carbon emissions & automate reporting with EnOS™ Ark.
